## Summary

Cleared worker with 6+ years in government and military workforce. Proven strengths in quickly learning new procedures, people, and technology, as evidenced by multiple transitions. I am looking for the start of my software engineering career with the opportunity to learn and grow into new challenges, teams, and skills over the years. I want to be a Senior Developer in 6 years, have a home and family.

## Experience

### Net Full Stack Developer

Revature

Oct 2021 - Present (8 months +)

- \*Created web apps using frontend and backend api design.
- \*Tools I used include some Java, C# with Entity Framework, SQL, Javascript, HTML, CSS with some Bootstrap, mostly Angular and Python in a Vscode->Github->Docker->Azure/Amazon workflow with 80%+ test coverage.
- \* Worked as a solo developer, leader of teams from 3-6 members, and Angular lead on a team of thirty.
- \* Lead daily standups as scrum master, solving blockers for developers and coordinating work strategies using agile to meet priority project deadlines.
- \*Proven ability to succeed in a fast-paced self-governed remote learning environment.
- \*I get top scores on tests and have high commit numbers.

### Construction Access Control

Insight Global

May 2021 - Oct 2021 (6 months)

- \* Monitored CCTV and co-ordinated with the team over radio communication.
- \* Secured phone and ID before permitted entry.
- \* Recorded errors and reported them to my PIC, marked badges for future entry and denial.
- \* Replaced 300+ crumbling badge holders so we could protect the workers badges, reducing maintenance.
- \* Repaired all four neglected guard booths and as result boosted moral.
- \* Provided a fan from home for guards working without AC, making people happier to work there.

### Cleared Escort

ONE Technologies

Mar 2021 - May 2021 (3 months)

- \*Monitored groups of workers for insider threat and security violations.
- \* Designated badge holder to permit entry into cleared spaces of office building.

- \* Reported suspicious activity to PIC and created daily reports.

## **Uniformed Cleared Access Control**

### **Apex Systems**

Aug 2020 - Mar 2021 (8 months)

- \* Worked multiple extra double shifts every week consistently in a 24/7 rotation.
- \* Issued badges through JPAS and enforced phone lock-up before entry.
- \* Guarded DISA, a large government complex on Ft. Meade.
- \* Distributed cases of water to all posts during summer.
- \* Followed Covid screening, random checks, badge checks, and technology screening procedures before permitting entry without exception.

## **Civil Servant**

### **The Rehancement Group, Inc.**

Dec 2018 - May 2020 (1 year 6 months)

- \* Improved file flow efficiency by 20% by reorganizing stacking and traffic structure.
- \* Retrained four times as internal needs changed over the years, exceeding expectations every time.
- \* Lead a small team without oversight to accomplish our mission and solve chaotic problems with general productivity.
- \* Searched through paper file boxes for errors wrote them on a sheet put boxes on a cart.
- \* Pulled boxes off warehouse shelves and placed them on carts, taking carts back and forth.
- \* Fixed errors in a secured inventory management system.

## **Soldier**

### **US Army**

May 2018 - Dec 2018 (8 months)

Developed on-command readiness to complete any time-sensitive order without detailed information.

- \* Entered with a perfect score on the ASVAB
- \* Created information-driven technical reports according to standard operating procedure.
- \* Performed security day and night without sleep for multiple nights in the mud, sand, rain, bugs, and sun.
- \* Injured during specialist training after completing boot camp with above-average marksmen and physical scores.

Gaps in work history are non-industry work, such as sales, uber, doordash, manual labor, landscaping, business, and pandemic relief.

## **Education**

### **Portland State University**

Bachelor of Science - BS, Computer Science

2014 - Present

### **University of Phoenix**

Associates of Science

**Chemeketa Community College**

## **Skills**

api • css • fast • forth • government • html • inventory management • java • javascript •
